

规格 / Specifications:

|                                    |                                                                                                                                                                              |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 翼展 / Wingspan                      | 800 mm / 31.5 in                                                                                                                                                             |
| 机长 / Length                        | 1192 mm / 46.9 in                                                                                                                                                            |
| 起飞重量 / Take off weight             | 1570 g / 55.4 oz (含6S,3300mAh电池 / with 6S,3300mAh battery)                                                                                                                   |
| 巡航速度 / Cruising speed              | 160 km/h                                                                                                                                                                     |
| 飞行时间 / Flying time                 | 3~5 分钟 / minutes                                                                                                                                                             |
| 主翼面积 / Main wing area              | 22.7 dm²                                                                                                                                                                     |
| 翼面载荷 / Loading of airfoil surface  | 69.2 g/dm²                                                                                                                                                                   |
| 商品主材质 / Main material              | 航模专用进口 34 倍 EPO / 34 times the import of aeromodelling EPO                                                                                                                   |
| 机体表面处理 / Body Surface Treatment    | 哑光环保水性漆+水贴纸 / Matte environmental water-borne paint + decal                                                                                                                  |
| 适合经验水平 / Suitable experience level | <input type="checkbox"/> 零级 / Zero basis <input checked="" type="checkbox"/> 初级 / Beginner <input type="checkbox"/> 中级 / Intermediate <input type="checkbox"/> 高级 / Advanced |
| PNP组装难度 / PNP assembly difficulty  | <input type="checkbox"/> ☆(10分钟 / mins) <input checked="" type="checkbox"/> ★☆(30分钟 / mins) <input type="checkbox"/> ★★(30+分钟 / mins)                                        |
| 适合操作年龄 / Operate suitable for age  | 18周岁或以上 / Above 18 years of age                                                                                                                                              |
| 工作环境温度 / Working temperature       | 0℃ ~ 40℃                                                                                                                                                                     |

配置 / Configuration:

|                               |                                                                         |
|-------------------------------|-------------------------------------------------------------------------|
| 遥控通道 / Remote control channel | 6CH (选配 / Selective configuration)                                      |
| 动力涵道 / Power system           | 暴风 80mm 涵道 / Storm 80mm EDF                                             |
| 动力电机 / Power motor            | 6SD3552 / KV1900 无刷 / Brushless                                         |
| 电池 / Battery                  | 6S / 22.2V / 3300~5200 mAh / 45C / Li-Po (选配 / Selective configuration) |
| 电调 / ESC                      | 好盈100A 无刷 (内置UBEC) / HOBBYWING 100A brushless (with UBEC)               |
| 舵机 / Servo                    | 12g×4 PCS (金属齿轮数码舵机 / Metal gear digital)                               |
| 起落架 / Landing gear            | 全金属避震起落架 / All metal shock absorber landing gear                        |
| 空气刹车 / Air brake              | 有 / Yes                                                                 |
| LED灯光系统 / LED Lighting System | 无 / No                                                                  |
| 副翼 / Aileron                  | 有 / Yes                                                                 |
| 鸭翼 / Canard wings             | 有 / Yes                                                                 |
| 垂尾 / Vertical tail            | 有 / Yes                                                                 |
| 增稳陀螺仪 / Reinforced gyro       | 选配 / Selective configuration                                            |
| 包装 / Packaging                | EPO 3D 包装盒+外箱 / EPO 3D box + Outer Box (1140×355×250mm)                 |
| 重心 / Center of gravity        | 距离机翼前缘 115~120 mm leading edge of main wing                             |

# HJ-10-80EDF

## 电池安装

### INSTALLATION OF BATTERY:

Recommended battery location  
for 6S,5000mAh(550g) Li-Po.  
6S,5000mAh(550g) 锂电池固定位置

## 建议舵量

### RECOMMEND SURFACE TRAVEL:

HSDJETS®

## 包装清单 / BOX CONTENTS:

安装 / ASSEMBLY:

先把加强管固定在左机翼里面，然后通过机身安装右机翼，并接好舵机线。  
Fixing reinforced pipe in the left wing with screws, Then insert the fuselage install right wing and connect servos line.

产品分解图 / DECOMPOSITION GRAPH:

- ①. 机身/Fuselage
- ②. 主翼/Main Wing
- ③. 鸭翼/Canard
- ④. 鼻椎/Nose
- ⑤. 腹鳍片/Ventral fin
- ⑥. 垂尾/Vertical tail
- ⑦. 尾管/Tail pipe
- ⑧. 起落架/Landing gear set
